Patent technology

Fingerprint technology

#Recognition

takes only one step#

**Delicate fuselage Simple fashion**

Integrated Forming of Panel

IML External Technology

Wear Resistance and Scratch Resistance

Engineering 4.0 design handle  
Seiko grinding handle, special grinding layer  
Create excellent feel

## New Upgraded Smart Card

User-specific Intelligent Encrypted Magnetic Card  
message can be deleted when lost

# Multiple ways of unlocking

Fingerprints, passwords, Apps, magnetic cards, keys

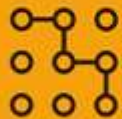

Algorithm fingerprint

App code

Card recognition

Peep proof password

Mechanical key

Design of Free Handle  
Isolate internal lock body after locking  
to prevent lock damage

Built-in high decibel doorbell  
Self-contained doorbell function  
without additional installation

## Hostile attack alarm

If the smart lock encounter a hostile attack, the system will alarm automatically

## Equipped

with USB emergency charging port.  
If batteries run out, you can emergency charge with a power bank then open the door when there is no key available.

## Suitable

for the thickness of 4-10cm door, No need to worry about being unable to install.

Four No. 5 batteries last for one year  
Low power algorithm enough for one year

Low 

Acer Green Instant On

365 days

High power endurance

What if there is no electricity?

Low power alert 

Electricity less than 10%  
automatic voice alert

## Specification:

Material: High strength aluminum alloy

Color: Black

Size:330\*71\*25mm

Weight:1200g(not including lock body)

Life:300,000 times

Suitable:4-10cm door

Unlock method: Password, Fingerprint, RFID card, APP, Mechanical key,  
centralized control

Power supply:4pcs AA batteries

Battery life: Over 7300 times unlock

Emergency power supply: 5V USB

Capacity:100
